

## 2025 Student Resource Scheme (SRS)

### Purpose

The purpose of this document is to provide open and transparent information to students and families about their Student Resource Scheme (SRS) fees. In 2025 the Department of Education has a clear focus on cost-of-living pressures in the community and as a school we are burdened with the increasing cost of goods and services, many of which are not funded by the Department. This document sets out the terms and conditions of the Student Resource Scheme (SRS) in an open and transparent manner and itemises by year level and subject, goods and services your student will use in 2025 in relation to the SRS scheme.

### Student Resource Scheme

The SRS operates at this school under the policy and guidelines of Education Queensland. The SRS has been implemented and maintained to ensure that all students have the necessary resources to support their educational requirements. It is also intended as a convenience to parents/caregivers to provide a more economical option to purchasing all requirements each year. At Wynnum State High School, a base fee is charged per year level, with additional fees incurred for resource heavy subjects (i.e. subject levies, instrumental music which will be invoiced separately). Parents wishing to take advantage of the resources and services provided by the scheme pay an annual contribution and any additional special subject charges and sign an agreement to comply with the conditions of the scheme.

The Wynnum State High School Parents' and Citizens' Association formally authorises the continuation of the SRS. Contribution to the scheme is voluntary. Parents/Caregivers are under no obligation to join; however, they will need to source and pay for all resources provided under the SRS scheme for their students if they elect not to join the scheme. (See list on following pages). **Please note, that if you are not joining the SRS, we do still require the form returned indicating this.**

### Benefits of the Scheme

The purpose of the scheme is to provide the parent with a cost-effective alternative to purchasing textbooks and/or resources elsewhere, through reduced prices gained from the school's bulk purchasing practices. The scheme also ensures that students have consistent personal resources for their education and saves the parent time and money in sourcing the prescribed materials elsewhere. The scheme is not used to raise funds for other purposes, and revenue collected through the scheme is applied only to the operation of the scheme.

Students participating will receive many resources required for their studies. These resources include:

- textbooks required for each subject
- technology support and license
- prescribed resources for subjects studied
- class sets of texts for some subjects
- reproduced class workbooks, worksheets and teacher-prepared material which complement and/or substitute for textbooks

### Activities not covered by the Scheme

The scheme does not cover students' personal requisites such as stationery and writing materials. Resources not covered under the Student Resource Scheme are included on the stationery requirements list for each year level.

These items are to be purchased by the student.

- excursions / incursions
- work experience placements – Years 10 to 12
- TAFE courses – Years 10 to 12
- courses / certificates offered by external providers – Years 10 to 12

- music contribution and instrument hire
- camps
- Biozone Science Books
- Sporting and Cultural Activities
- other resources / services may be recommended for purchase

## Computer access – Bring Your Own Device and 1:1 Laptop Scheme

Wynnum State High School is transitioning from a 1 to 1 Student Laptop Program to a Bring Your Own Device Program. The Bring Your Own Device (BYOD) model allows students to be able to access the department's information and communication (ICT) network with their personally owned devices. You can read more about the BYOD policy [here](#).

In 2025, Year 10 students are being added to the rollout of the BYOD Program. In 2025 it is expected that Year 11 and 12 students will also participate in the BYOD Program. However, Year 11 and 12 students will continue to have access to the 1 to 1 Student Laptop Program. Further information about Year 11 and 12 Computer access can be found on our [website](#).

Families utilising the 1 to 1 Student Laptop Program will pay an additional Student Resource Scheme Fee to access a school owned hire laptop. Laptop fees are detailed below in the Fees and Payment due dates section.

## Payment of fees

If your child participates in any additional activities or courses offered (for example but not limited to: Instrumental Music Program, or Dance Program) a fee over and above the SRS amount will be payable. The current Government Textbook and Resource Allowance from Education Queensland (as of January 2025) is \$160 for Years 7 – 10. This amount has already been deducted when determining the school fees.

Payment options are: BPoint (our preferred method – also available on QParents), Payment Plan, EFT (bank transfer), EFTPOS (over the counter only), Visa/Mastercard (no over the phone payments will be accepted) or Centerpay.

## Fees and payment due dates

Student Payments can be paid in full, term-based instalments or you can arrange an individual payment plan as approved by the Accounts Department.
